What to Know

- **Control Your Processes:** Learn how to control the parts of your processes that directly affect the consumer (think Apple and their efforts).
- **Look at Your Supply Chain Operations:** Vertical integration provides a major advantage over rivals who depend on the conventional buyer-seller relationship to get stock in.
- **Rethink Horizontal Agreements:** Horizontal involvements run the risk of standardized processes and “power shifts” to players that dominate these horizontal layers – Microsoft and Intel are recent examples.
- **Calculate the Costs:** The bigger the corporation, the more difficult (and expensive) it is to build a “complete customer experience” through vertical integration.
- **Reevaluate Products/Services Connections:** You’ll need good guidelines to rethink your current product and service combinations.

Tips & Tricks

- BE RUTHLESS – THINK ABOUT THE “COMPANY’S OVERALL WELFARE” – NOT YOUR OWN OR THAT OF ANY SINGLE GROUP OF EMPLOYEES
- BE COURAGEOUS – ACT ON THE INFORMATION DEVELOPED FROM THE STRATEGY BUILDING PROCESS
- BE THOUGHTFUL – READILY EXPLAIN YOUR PLANS AND THE NECESSITY FOR ACTION TO YOUR EMPLOYEES, YOUR CUSTOMERS
- BE CONCILIATORY – DON’T BACK DOWN ON YOUR PLANS OF ACTION, BUT DO LISTEN TO CONCERNS, QUESTIONS – THEN EXPLAIN WHY YOU’RE GOING TO DO WHAT NEEDS TO BE DONE
